Please Approve the Advanced Clean Cars II (ACC II) Regulation

The Advanced Clean Cars II (ACC II) regulation will help accelerate a quick, smooth, and efficient transition to clean electric cars. By committing the state to a gasoline-free future, ACC II will help make affordable and economical EVs more available to all. It will save drivers billions of dollars on fuel and maintenance. It will diminish the air, water, and climate pollution that disproportionately impacts communities of color and low-income communities. As a Washington resident, I want 100% Clean Cars by 2030, not later.

Thank you.
