

# Joshua Gonzalez

1. An Electric vehicle will not have the range or towing capacity necessary to tow my travel trailer for work. If I cannot work, the state loses revenue.
2. A better choice of electric vehicles may add to some more folks buying them, but mandating is not the way America works.
3. As we have seen throughout history, just because California does it doesn't mean that it is legal, correct, or feasible.

There is a reason people are moving to states like Washington from California. We have a beautiful state with some common sense still intact. Let's keep it that way.

Please do not follow California off of a cliff!
