

## John Harvey

EV mandate ignores the fact that battery production for the EV produces as much or more carbon emissions than a traditional gasoline operated vehicle. And bigger EV batteries, for greater EV range, will surpass traditional vehicles significantly. A fact ignored by the said mandate. See attached chart.

**Trust that you really just don't know, or don't care to know the facts. However, facts matter more than feelings and more than marketing and profiteering by regulators. The "climate crisis" is marketing. Shifting money away from one group to another. It's**

38

not to "save the planet"...If we wanted to  
save the planet we could do it in a weekend.
