

Sarah Fischer

Washington citizens support moving beyond gasoline as fast as possible. ACC II will help accelerate a quick, smooth and efficient transition to clean electric cars. By committing the state to a gasoline-free future, ACC II will help make affordable and economical EVs more available to all. It will save drivers billions of dollars on fuel and maintenance. It will diminish the air, water, and climate pollution that disproportionately impacts communities of color and low-income communities. We want 100% Clean Cars by 2030!
