

# Chris Kimball

Please, please, PLEASE don't create mandates for electric vehicles. Let the market decide, not government. I don't want the government deciding for me what kind of car I must buy. If electric cars are superior to gasoline powered cars, the people will buy them once the infrastructure can support them. If not, don't push the public into something they don't want!

There's not much more I can say that hasn't been said already, but please listen to your constituents and do not pass any law with limits our choices.

Thank you.

Sincerely,

Chris Kimball
