

Heidi Stephens

PS ~

In follow-up to my prior submitted comments, regarding South Tacoma:

The South Tacoma neighborhood would be especially ideal for your focus, not only for all the reasons mentioned previously, but also because the community had already submitted a proposal to the city to begin reversing polluting industry and lessening damaging traffic emissions for improved air quality results very similar to those your Facts Sheet wishes to ultimately obtain.

Please connect with me/my neighborhood council (board@southtacoma.us) as a community to eventually be part of implementing this commitment plan ~ thank you!
