

## Katie Bunge

What questions do you have about this rulemaking?

I am submitting these survey responses as an employee of WSDOT's Public Transportation Division, a CCA funding recipient of Climate Transit Program Account funds. I'm generally curious about how partner agencies and recipients will be involved and included in developing the processes and guidance documentation for CCA reporting.

What concerns do you have about this rulemaking?

I have lingering questions about which metrics WSDOT staff should be tracking in order to successfully meet the CCA reporting requirements for projects utilizing Climate Transit Programs Account funds. I am eager to stay informed about the process so that our division can begin to track our project performance towards meeting the intent of CCA.

What hopes do you have for this rulemaking?

I hope that this rulemaking sets a framework that is consistent for reporting across all CCA recipients. At the same time, I hope that Ecology can partner with recipients to provide technical training and resources so that we can successfully report on the impact of our funding allocations.

What barriers might make it harder to participate in this rulemaking? What scheduling, accessibility, or other changes might make it easier?

I can't identify any current barriers for participating in this rulemaking. I appreciate being updated on the rulemaking process and hope that WSDOT's Public Transportation Division staff are invited to future stakeholder meetings.

What else would you like to share?

I have no other comments, and look forward to becoming more informed and involved in Ecology's rulemaking process for CCA reporting. Thank you for your time.
