What information should Ecology provide in its annual report?

how to spend money on solar power not oil
how not spend money on wind tunnels not coal
why can't they figure the sun is safer than nuclear power
when do we work out a way to let native indigenous run the state and national forests

How should Ecology determine which projects are required to report their GHG emissions reductions?

just make cars electric!

What should Ecology consider when determining how to evaluate greenhouse gas emissions reductions from projects?

that too much creates climate change
