

Department of Enterprise Services

On behalf of DES Contracts and Procurement:

1. Does Ecology have a definition of environmentally preferred products (EPP)? Is that addressed in the preliminary draft rule?
2. Does Ecology address EPP as it does equity and environmental justice?
3. How does safer consumer products relate to EPP? Are these interchangeable?
4. How will these identified chemicals and consumer products impact DES Statewide Contracts?
5. Has Ecology identified applicable products that will be impacted and are being sold on DES Statewide Contracts?
