Comment 1

Appendix CA CA.6.1.1 “For containers not placed in an orderly fashion, options available are:”

Response

****Remove this statement as it does not apply.**

RATIONALE

At Perma Fix Northwest mixed waste facility, all containers are profiled and registered immediately and sample units identified in CB.3 Sampling Quality Control Requirement. The samples are all administered using the proper chain of custody.

Comment 2

Addendum G, Table G-7 The Two-way radio locations are labeled as "varies".

Response

Please update the location of the two-way radios, in Addendum G, Table G-7, to be specific. There are two base station radios in building 6 and building 8. There are 37 hand-held radios with key staff at all times during working hours. Site security has a radio 24 hours per day. This should also be revised in section G.5.5 to read “Hand-held, two-way radios or cell phones are carried by the EC, the EC alternates, unit supervisors, and security personnel.”

Comment 3

Addendum G, G.7.10 The directions to the hospital here are inaccurate due to construction changes.

Add the updated directions to Addendum G, Section G.7.10 as follows:

1. From Logston Rd

2. Turn Right on Battelle Blvd
3. Go east to Stevens Drive. 0.7 miles
4. Turn right on Stevens
5. Go south for 2.4 miles.
6. Turn left to Jadwin Ave
7. Go south on for 2 miles
8. Turn right on Swift Blvd
9. Go west for 0.3 miles

Travel Time: 15 minutes

Comment 4

Appendix IA.b, Table IA.b-5, H&S Officer title is not the current title used for the MWF operation.

Response

In Appendix IAb, Table IA.b-5: change H&S Officer to H&S Manager. Remove Teresa McQueen's name and add Doug Carter.

Comment 5
