

John Zorich

Change to M-100-03: Initiate the 4-year discussions, not 5-year. Due date: ...and every four years thereafter. This change will align the review cycle with Federal and State budget and election cycles. Meeting every 4 years will be more nimble while only imposing a minor increase in administrative effort. Setting the cycle to correspond to Federal and State election cycles will help the process work more efficiently and be more responsive to public concerns.

Overall, the gist of this change, adding M-100, to provide a process that responds to changing conditions and new information is laudable and I am happy to see it.
