Cameron Wilcox

As a long time hunter, angler, shellfishier of Norhtwest Washington I would like The State and Dept of Ecology to develop a legal framework for how the public can access public waters legally. This process can start in Chapters 173-18, 173-20, 173-22, 173-26, and 173-27 WAC, Shoreline Management Act. For too long the State has looked the other way and hoped people would just figure things out on their own, defaulting to upset landowners and peacekeepers to lay their own framework for access. Please step up and put in the work to make public access to shorelines clearcut for the public, private landowners and law enforcement.
