

Natalie Williams

Thank you for listening to our concerns and asking for input. I am concerned about fire at the Snoqualmie BESS. We are told that a fire would be allowed to burn out and the water run off will be toxic ruining our water shed. Have they looked into how we would evacuate the Echo Glen Children's Prison, 2 Elementary schools, a Hospital and homes? The size of the clear cut so close to Fisher Creek would be detrimental to the creek. Putting a BESS in a neighborhood is not good planning.
