

June 16, 2021

Dear Emily Kijowski,

I am commenting on  
"Statewide General Permit for  
Biosolids Management,"

Please do not renew.

We don't know what may be in  
those bio-solids.

We test for only 9 heavy metals.  
All sewage bio-solids may contain  
toxic and hazardous materials.

It is a dangerous program.  
Again, please do not renew!

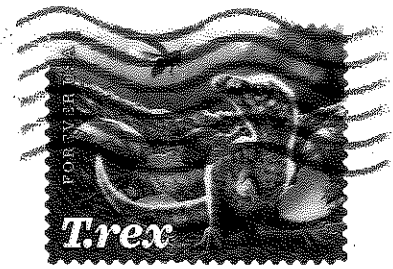

Thank you,  
Stanley J. Jackowski
