

To the Department of Ecology,

DEPARTMENT OF ECOLOG

I am concerned about Dept. of Ecology stand on sewage sludge, and the use of sludge.

JUN 24 2021

WATER QUALITY SLUDGE

The topic of sewage sludge needs a realistic and honest and open debate of how to really clean it up. I hope this can be done, so that sludge can be utilized in a way that is healthy for everyone and every place.

There are people studying ^{and} having good outcomes cleaning sludge up; with algae and maybe even fungi, or maybe even ^{for} methane use, but in a way that's healthy ~~for~~ for all.

I realize these methods may seem more costly, but what about the cost of ~~of~~ all our health from careless use of sludge.

We need an honest and open approach to deal with sludge, please.

Sincerely - Deanne Burdine
