

Melissa Jung (Melissa Jung)

Dear Department of Ecology Team,

Under section 173-950-230 "Reuse Financial Assistance Program" we suggest amending the language under bullet point #2 to read "Producer responsibility organizations must consult with the department, Advisory Council, and interested parties in the development and implementation of the reuse financial assistance program, ...".

The addition of the Advisory Council and interested parties to this line item will help ensure that the producer responsibility organization benefits from invaluable input from stakeholders closely engaged in reuse systems and programs, helping to inform the effective development and implementation of the Reuse Financial Assistance Program.

Thank you,
Melissa Jung
Senior Policy Officer
