The two Maps: Figure 4. "Geographic Scope of Engagement" and Figure B-1. "Map of Survey Respondents by County" (the latter in the appendix) both erroneously neglect to include Vashon Island, which should be colored green along with the rest of King County. Vashon Island is an unincorporated part of King County and therefore should be included in the underserved communities group. How many survey respondents from zip code 98070 (Vashon Island) were included in the analysis?
