SCHEDULE 5

Use of Client's Barges. The Client agrees that it shall make available to the Provider on a preferential basis such barge capacity as the Provider may request to store oil in connection with an oil spill response effort. A preferential basis means that the Client shall provide such barge or barges as meets the storage capacity requested by the Provider except where, throughout the period of time of the Provider's request, the Client's barges are laden, or under time charter to a third party, or at a location from which they would not be able to arrive at the location requested by the Provider within the time period specified taking into account tug availability.

The consideration for Client's agreement to make barges available on a preferential basis is the favorable membership fees reflected in Schedule 3.

In exchange, the Provider agrees to pay the Client at market rates for the use of such barge(s).

The Client agrees to furnish the Provider with information requested concerning the Client's barges and to advise the Provider of changes in this information during the period of this Contract.

If the unit is available and response times fit NRC's needs, unit shall be cleaned exterior and interior tanks to condition prior to NRC's use.

All assist tugs, port charges and dock charges related to mobilization or post incident cleaning are for the account of NRC.

Any damages sustained during use and not recoverable by insurance shall be for account of NRC.

SCHEDULE 5

Addendum No. 1

Use of Client's Barges. The Client agrees that it shall make available to the Provider on a preferential basis such barge capacity as the Provider may request to store oil in connection with an oil spill response effort. A preferential basis means that the Client shall provide such barge or barges as meets the storage capacity requested by the Provider except where, throughout the period of time of the Provider's request, the Client's barges are laden, or under time charter to a third party, or at a location from which they would not be able to arrive at the location requested by the Provider within the time period specified taking into account tug availability.

The consideration for Client's agreement to make barges available on a preferential basis is the favorable membership fees reflected in Schedule 3.

In exchange, the Provider agrees to pay the Client at market rates for the use of such barge(s).

The Client agrees to furnish the Provider with information requested concerning the Client's barges and to advise the Provider of changes in this information during the period of this Contract.

If the unit is available and response times fit NRC's needs, unit shall be cleaned exterior and interior tanks to condition prior to NRC's use.

All Assist Tugs, Port charges and Dock charges related to moralization or post incident cleaning are for the account of NRC.

Any damages sustained during use and not recoverable by insurance shall be for account of NRC.

Acknowledged by:

Subtotal Retainer:

Adjusted Subtotal Retainer

Lump Sum Retainer

OSRO Services

Contract Term: 2/18/2025 to 2/17/2026

Retainer Amount:

Acceptance:

X

Authorized Signature Date

The total retainer amount provides OPA'90 OSRO compliance and dispersant services for the above listed tug(s) and barge(s) in exchange for the established Schedule 5 in place.

SCHEDULE 5

Use of Client's Barges. The Client agrees that it shall make available to the Provider on an as available basis such barge(s) as the Provider may from time to time request to store oil in connection with an oil spill response effort undertaken by Provider. The determination with respect to the availability of a barge shall be in the sole discretion of the Client.

The consideration provided by the Provider to the Client in exchange for the Client's agreement to make barges available is: (i) the favorable membership fees reflected in Schedule 3 hereto, (ii) the Provider's agreement to pay the Client their then-current rates for the use of such barge(s) on a bareboat charter basis under the Client's standard bareboat charter, and (iii) the Provider's agreement herein to defend, indemnify and hold harmless, the Client, its subsidiaries and affiliated companies, and their respective employees, directors, officers, servants, agents, invitees, vessels, and insurers, from and against any and all claims, demands, liens, liabilities or causes of action of every kind and character, in favor of any person or party, for injury to, illness or death of any person; for damage to or loss of property, including the barge(s) provided hereunder; for wreck removal; for pollution damages, including but not limited to costs associated with spill response, removal, and remediation, and damages to the environment; for violation of any requirement of law or regulation, including but not limited to any requirement related to proper and lawful disposal of any material placed in or on the barge(s) provided hereunder; or for consequential damages of any type, including loss of use of any vessel or property, arising from or related to the use of the barge(s) provided hereunder by the Provider. The Provider expressly agrees that the foregoing indemnity obligation shall extend to claims, demands, liens, liabilities or causes of action in favor of third parties. **The Provider further expressly agrees that the foregoing indemnity obligation is without regard to any negligence, including sole negligence, fault or strict liability of Client, its subsidiaries and affiliated companies, or their respective employees, directors, officers, servants, agents, and invitees and without regard to any condition of unseaworthiness of the barge(s) provided hereunder.** The Client agrees to furnish the Provider with information reasonably requested from time to time by the Provider concerning the Client's barges and to advise the Provider of changes in this information.

The Provider shall redeliver the barge(s) provided hereunder to the Client at the end of the time period specified, at the port from which each was mobilized for the Provider's use hereunder, or at such other location as the parties may hereafter agree, in as good order and condition as when received, reasonable wear and tear excepted, with all exterior surfaces, equipment and piping and interior tanks cleaned at the Provider's expense to their condition prior to the Provider's use. Reasonable wear and tear shall not, however, include any breakage, structural damage, or class impairments. Upon redelivery, the Client shall cause the barge(s) provided hereunder to be surveyed by a surveyor of its choosing to determine the condition of the barge(s) provided hereunder. Such survey shall be at the Provider's expense; the Provider may have a representative in attendance at the survey. If, upon such survey, it should be found that the barge(s) provided hereunder are not in as good condition as when received by the Provider, reasonable wear and tear

excepted, the Client shall have the right to either require the Provider at its sole expense to put the barge(s) provided hereunder in good condition as aforesaid, or accomplish said work itself, charging the cost thereof to the Provider. The Provider shall, during any period required to accomplish said work, be liable to the Client for charter hire as stipulated herein.

All tugs, port charges and dock charges related to mobilization, demobilization or post incident cleaning of, or otherwise levied against, barge(s) provided by the Client hereunder are for the account of the Provider.

SCHEDULE 5

Use of Client's Barges

October 17, 2007

The Client agrees that it shall make available to the Provider on a preferential basis such barge capacity as the Provider may request to store oil in connection with an oil spill response effort. A preferential basis means that the Client shall provide such barge or barges as meets the storage capacity requested by the Provider except where, throughout the period of time of the Provider's request, the Client's barges are laden, or under time charter to a third party, or at a location from which they would not be able to arrive at the location requested by the Provider within the time period specified taking into account tug availability.

The consideration for Client's agreement to make barges available on a preferential basis is the favorable membership fees reflected in Schedule 3. In exchange, the Provider agrees to pay the Client at market rates for the use of such barge(s). The Client agrees to furnish the Provider with information requested concerning the Client's barges and to advise the Provider of changes in this information during the period of this Contract. If the unit is available and response times fit NRC's needs, unit shall be cleaned exterior and interior tanks to condition prior to NRC's use.

All assist tugs, port charges and dock charges related to mobilization or post incident cleaning are for the account of NRC. Any damages sustained during use and not recoverable by insurance shall be for account of NRC.
