Nance Hall	Tier One Volunteer	Lopez Island	Field Responder	Site Assessment & Response		8						
Scott Allen	Tier One Volunteer	Lopez Island	Field Responder	Site Assessment & Response		8						

**How to fill the table out**

Identify all staff that would be expected to provide oil spill response services for your company and for potential contracted plan holders.

Job titles and duties/roles must be defined in the PRC application and align with the roster. Define what these positions are responsible for in terms of oil spill response activities. They must include appropriate training including how you train on hazardous and other relevant oil spill response methods.
