

## Claire P

Thank you for sending the Rainier Mall Cleanup Site flyer in the mail, it is great to have an update on the space. I strongly support the clean-up of the Rainier Mall site and the plan to add affordable and market rate apartments with retail on the ground level. The sooner the site can be sufficiently cleaned, the sooner new businesses can open and neighbors can move in. It is my hope that by adding these buildings as soon as ecologically appropriate, the neighborhood will become more safe, walkable, and new local business options can thrive. It will be great for the undeveloped and unused space to become a positive element in the community.
