

## Fin Hardy

Skyway needs housing that is truly affordable and facilitated by a developer that has a genuine connection to our neighborhood. The larger site of Skyway Mart would be better suited for a community center, which Skyway has been asking for for many years. It shouldn't take a developer to kickstart the toxic waste cleanup. Why hasn't king county prioritized toxic waste cleanup prior to the site being purchased, this shows a real underinvestment and systemic racism by king county toward Skyway.
