

Mikayla Monroe

My name is Mikayla Monroe and this comment is for the Unocal Edmonds Bulk Fuel Terminal 0178 project. My comment is to use Feasibility Study Alternative Number 4 as presented at the hybrid public meeting on September 16th, 2024 at Edmonds City Hall. This had the highest MTCA Benefits Rating (blue bar as shown in the presentation). It is well worth the cost to cleanup what the Unocal company did to our natural habitat and its creatures decades ago and the impact it still has today.
