

Lindsey Harris

I am very excited to hear that there is both a clean up program for this site, as well as a plan to add more affordable housing to Beacon Hill. I just moved to this neighborhood in the last year and have loved the strong sense of community. It is my hope that adding affordable housing will help protect long term residents from being priced out of the neighborhood and keep this historically Asian Pacific Islander neighborhood diverse. Part of the vibrancy of this neighborhood is seeing the lively nightlife and food options, especially welcoming immigrant owned and operated food trucks and establishments. My hope is that this site and the neighborhood around it continue to be a welcoming place for all and that future development considers how to protect small, mom and pop business owners currently serving food in this area.

Thank you Department of Ecology for the outreach notice and great work!
