

## Geoffrey Liu

Wow. I didn't know the history of this site and that it was contaminated. Let's clean it up real good and make use of it cause it's valuable \$\$\$ space close to transit and daily necessities.

\*\*\*This would be a good opportunity to build a large under-ground parking lot! I see Othello growing a lot in the next 10 or so years and attracting people from out of town. They're gonna need a space to park their cars and as a local I'd love to see us attract out-of-towners but also concerned about the traffic impact from people looking for parking spots!\*\*\*

Some public spaces in this huge lot would be nice too.
