I'd like to know the cumulative cost that has been spent to cleanup the site, and if possible with a breakdown by year and by dollars spent by developer, by City of Edmonds, by Unocal, by the State, and by others.

If more is yet to be spent, what is the estimate of how much more will be spent in the next 5 years by different entities?

Are there any open legal issues, and lawsuits surround the clean-up? If so, who are the parties involved and what is the lawsuit about?
