

Cherste Nilde

I'm writing in support of SL5. I have retired in Port Angeles, working my way from the Midwest to this beautiful small town. I have walked the harbor area as well as sailed into the harbor. Half of that beautiful harbor is derelict because of the Rayonier Mill site. Please make sure it is cleaned right the first time. Make sure it is beautiful, safe for man and wildlife, and once again a living part of Port Angeles Harbor. Thank you.
