

david myers

Hello Vancouver is a beautiful place. It has many recreational opportunities for us in the metro area with Vancouver Portland. Unfortunately it is being clogged with milweed which is preventing water sports (rowing , paddling ) ie non carbon emitting activities.

PLEASE SAVE VANCOUVER LAKE!!!!!! this clearly endangers fish and public health

Despite its long status as a Category 5 303(d) impaired water body, Vancouver Lake has not been prioritized for clean up by the State of Washington.

We have MANY LOCAL CHAMPIONS WHO WILL VOLUNTEER IF YOU LEAD>

sincerely a US Navy VETERAN WHO SERVED IN WASHINGTON STATE AND MARRIED A
