

Pam Pagel

Please give Vancouver Lake the attention it deserves. Our community counts on this lake for paddle sports, swimming and recreation. It is heavily used by the community when it isn't shut down for toxic pollution. As a dragon boat paddler, and past parent of the Vancouver Lake Crew Team, I know first hand how amazing it is to be out on this body of water. However, it is incredibly dirty and is in need to attention. So many depend on the beauty and usefulness of this body of water, please help!
