

## Jana SCHWEITZER

Hello, please prioritize protection of Vancouver Lake. This is a gem that is used by many rowers, paddlers, sailboats, kayakers, swimmers. It is a tragedy that between the milfoil and the algae, that this lake cannot be used safely/healthily for a number of months. If allowed to degrade further, it will become further unusable. There is a huge amount of local interest and public support for this watershed, and some of the activities such as the rowing regattas also bring significant revenue annually to Clark County. Thank you for your focus on protecting this watershed.
