

Fred and Rhonda Dojan

Please prioritize Vancouver Lake as a water improvement project. There are many recreational activities that take place on Vancouver Lake and no other options for us in the area. We are members at the Vancouver Lake Sailing Club, our son was the sailing school instructor and we have a sailboat we store and use there. Our daughter rowed with the Vancouver Lake Rowing Club and was there almost every day for several years. She was able to qualify for Nationals both her Junior and Senior year of high school and is now rowing at a Division 1 University because of the opportunities provided for her at Vancouver Lake. Vancouver Lake is very important to our family. We hope everything is done to preserve this wonderful location for our community. Thank you for your consideration.
