

Rebecca Wahlstrom

Vancouver Lake is an important amenity not only to the sporting groups that utilize it, but the county, as a whole. Large regattas are held here multiple times a year, each drawing hundreds of people from across the state. All those people purchase food, book hotels, and buy gas in the area.

Also, people have bought property for the water views. The value of their land depends on an attractive and healthy amenity.

I strongly encourage anything that can be done to protect Vancouver Lake.

Sincerely,
Rebecca Wahlstrom
