

Jill MacKenzie

Vancouver Lake is a gem to our community. I paddle on a dragon boat team there 3 times per week for the past five years. On clear days we can see 5 mountains. We often see bald eagles and osprey. One time we saw a beaver. This past spring we were fortunate to see the fish spawning. On a Saturday morning there is no place more beautiful. We see the sunsets during the fall evening practices. We share space with the rowers and they are awesome to watch. Please help clean up this beautiful place!! It is loved and used by many.
