

# Darryl Pope

I don't believe there should fish farms

In Washington state

Ken Warheit with the WDFW, think it alright

Governor Inslee wasn't going to let fish farming proceed

There is no steelhead fishery left

Do go ahead and let them have there fish farm, then we can kill the rest of our wild stock off

Because science doesn't count , viruses documented ISA, PRV,HSMI and no one in WDFW give a rats ass!

Just watch racing a virus by Alexandra Morton
