

# Spirit of Orca, llc

Cooke Aquaculture has failed time and time again and yet we as a state keep bowing to them.

We voted them out of Washington waters at the end of their leases and WDFW and Cooke Aquaculture violated the spirit of that vote by inserting a different species of fish.

All of the same problems exist. Water pollution, failed net pens from lack of maintenance, escapement.

Cooke Aquaculture needs to leave our state for good. Dirty politics they bring to the table as well.
