

Rob Schmaus

Please stop this!! If you had a house guest, and that house guest caused irreparable damage to your physical home, damage that could not be measured and who's repercussions will be felt for years, all because they directly defied you house rules, WHY WOULD YOU LET THIS HOUSE GUEST BACK INTO YOUR HOME?!?

It is absolutely ridiculous that This is even being considered...

These people have no respect of our waters, they have proven that. What has changed?

This is about money. Lobbyists and back door meetings. Don't let that sway you from doing what is so clearly right. STOP COOKE AQUACULTURE.

Renew the faith in our system and do what's right for our environment.

Bye Felicia!
