

Adele Riffe

The time has come to CLOSE THE LOOPHOLE that allows cruise ships to dump into our oceans toxic "scrubbed" exhaust pollution from the burning of the dirtiest of fossil fuels! Amendment 2 would ban scrubbers and stop the pollution of Puget Sound, which threatens endangered orcas. During the pandemic, cruise ships were moored - which allowed the delicate marine ecosystem to recover somewhat from their wanton pollution of the very waters that they depend on for passengers!

SUPPORT AMENDMENT #2 TO BAN SCRUBBERS!
