

## Juli Kring

As a mother and a grandmother, I am very concerned for the health and viability of the planet our children and future generations will inherit. We have a duty to our communities, families and most importantly, children to ensure their safety and well being through environmentally sound and sustainable policies, including clean air and water. That duty will always be more important than cooperate profit.

So I am very concerned about \*our\* oceans. The COVID-19 pandemic has been an ongoing tragedy on a global scale, but the resulting cessation of cruise vessel traffic in the Puget Sound has been a welcome reprieve from the water pollution these ships create. That's why scrubber dumping cannot return to the Sound. I support amendment #2. Please ban scrubbers!
