

## Richard Paperno

Cruise ships are for human fun and pleasure. There is NO FUN AND PLEASURE IN THE GROSS POULTING OF OUR OCEANS! This is another bad example of GREED AND GREED AND IGNORANCE. Not ignorance of what they are doing and what WE are allowing, but the ignorance that we can even think of letting GREED FOR PROFIT come before human decency and good stewardship practices of our actions on the planet we need to survive for many generations who can come after we are long gone!. There is a yawning loophole that allows cruise ships to burn one of the dirtiest fossil fuels on earth - heavy fuel oil - by 'scrubbing' the exhaust and discharge the toxin-laden wastewater directly into the ocean. That's why I support amendment #2 to ban scrubbers.THIS MUST END NOW!
