

Ken Simila

Puget Sound is a unique, fragile ecosystem. There is a yawning loophole that allows cruise ships to burn one of the dirtiest fossil fuels on earth - heavy fuel oil - by 'scrubbing' the exhaust and discharge the toxin-laden wastewater directly into the ocean. That's why I support amendment #2 to ban scrubbers.

I enjoy boating and cruising in Puget Sound's pristine waters. Please protect them with amendment #2 to keep the waters free of commercial ship dumping.s
