

Allison Yetiker

Please deny cruise ships the allowance for further dumping of toxic waste. In high traffic inlets like Puget Sound, the build up of scrubber dumping is compounding and has serious implications on endangered species like killer whales. Our seas and sea animals need to be saved from further destruction. Presently, we have reached a critical impasse in which further destruction of the ocean, fish or sea mammals will not be recoverable. Please consider the fact that capitalism does not mean we should value money, goods, and trade over the future of our seas and it's inhabitants.
