

R. Thorne

There is a loophole that allows cruise ships to burn one of the dirtiest fossil fuels on earth - heavy fuel oil - by 'scrubbing' the exhaust and discharge the toxin-laden wastewater directly into the ocean; but, now, there is a great opportunity for the cruise sector to show that they are committed to changing their polluting ways by agreeing to end the dumping of all scrubber wastes in Puget Sound. Please approve amendment #2 and ban scrubbers.

Thank you
