Now is the time for the cruise industry to take responsibility for years of wrongful behavior. This is a huge opportunity for the cruise sector to show that they are committed to changing their polluting ways by agreeing to end the dumping of all scrubber wastes in Puget Sound. The cessation of cruise vessel traffic in the Puget Sound due to the Covid 19 pandemic has been a welcome reprieve from the water pollution these ships create. That's why scrubber dumping cannot return to the Sound. Please approve amendment #2 and ban scrubbers.
