

Jennifer Ault

Please ban scrubbers from the cruise industry! There is currently in place a loophole that allows cruise ships to burn one of the dirtiest fossil fuels on earth—heavy fuel oil—by "scrubbing" the exhaust and discharging the toxin-laden wastewater directly into the ocean. That's why I support amendment #2 to ban scrubbers.

This is a huge opportunity for the cruise sector to show that it is committed to changing its polluting ways by agreeing to end the dumping of all scrubber wastes in Puget Sound. Please approve amendment #2 and ban scrubbers.

Marine ecosystem needs a healthy home to survive. The COVID-19 pandemic has been an ongoing tragedy on a global scale, but the resulting cessation of cruise vessel traffic in the Puget Sound has been a welcome reprieve from the water pollution that these ships create. That's why scrubber dumping cannot return to the Sound. I support amendment #2.

Thank you.
