

Marcia Kellam

Ban scrubbers. There is a loophole that allows cruise ships to burn one of the dirtiest fossil fuels on earth - heavy fuel oil - by 'scrubbing' the exhaust and discharge the toxin-laden wastewater directly into the ocean. That's why I support amendment #2 to ban scrubbers.

Also, now is a chance for the cruise sector to show that they are committed to changing their polluting ways by agreeing to end the dumping of all scrubber wastes in Puget Sound.

Marine ecosystem needs a healthy home to survive. Cruise companies are not only ignoring the health and well-being of the other animals we share this planet with, but that attitude is to our own detriment! It doesn't even make common sense to behave in the manner they are.

Ban scrubbers!!!!!!!!!!
