

## Jean Tepperman

Please ban cruise ship scrubbers from emptying their waste into Puget Sound -- this would be not only disgusting but profoundly harmful. Not only to the charismatic species like orcas, but to the whole marine ecosystem. I guess scientists have always known, but like many members of the public I am becoming more and more aware of how all life on earth -- including mine and those of my dear grandchildren -- depend on a healthy marine ecosystem. Please protect us all!
