

Reverend Nathan Jimenez N.C.S.

There is no reason why we should even be using petrol or fossil fuel products we can run cars, trucks, on solid hydrogen as demonstrated by Stan Ovshinsky. We can run trains and fly planes on biodiesel, we can even make plastic-like products from biomass cellulose products so there is no reason why we should be using petrol products at all. By not using biofuels you are hurting American Farmers. So please stop allowing drilling for oil, fracking for gas, which pollutes the atmosphere and destabilizes the earth's crust by drilling and fracking. We need to move toward a sustainable and renewable future. In addition, there are biofuels which would help American Farmers make money that are also available to be used for fuel so there is no reason for us to be using petrol at all. Fundamentally the use of petrol is old world moronic thinking. Are you a wise person or a moron, be a wise person and oppose such horrible environmental damage. We all live on this planet and we only have one planet we have to be as the bible says good stewards of the earth. Do not give into greed or for the lust of power, greed and the lust for power leads to perdition. If we do not invest in a green infrastructure then the United States of America will fall behind in these technologies. All new cars should be biodiesel hybrids this would go far to eliminate pollution. Countries like China will gain market share in these areas of business. If we have sustainable green energy we will always eternally have sustainable green energy. This is a wise decision to switch to clean energy so we will always have energy.
