

Lisa Cassell

Marine ecosystem needs a healthy home to survive. The COVID-19 pandemic has been an ongoing tragedy on a global scale, but the resulting cessation of cruise vessel traffic in the Puget Sound has been a welcome reprieve from the water pollution these ships create. That's why scrubber dumping cannot return to the Sound. I support amendment #2. We MUST do all we can to protect our oceans and the beings living there. We cannot continue to treat this planet as our playground without respect for the other creatures we share this planet with. We cannot treat our oceans as a toilet!
