

Snoqualmie Indian Tribe

Dear Laurie Morgan,

The Snoqualmie Tribe's Environmental and Natural Resources Department has reviewed the Critical Aquifer Recharge Area Guidance. We would like to continue to encourage Ecology to consider discontinuing the VSP program for counties that use VSP to negate the need for critical area ordinances in relation to agricultural practices (Page 7, Point 3).

Thank you for the opportunity to comment,

Kelsey Taylor | Water Quality Manager | Snoqualmie Indian Tribe
