

rob inlow

We as producers do not need the state to force us into good stewardship, we already do this either on our own or in partnership with NRCS or like agencies for projects on our ranches. this just add another layer of burden to producers. Your broad written policies don't always fit every situation and therefore cause grief and hardship that is needless! believe it or not we do love our land and our neighbors, and take proper precautions to protect them and the environment. You need to stay in your lane of policing the bad actors and leave the rest of us alone!!!!!!!!!!
