Dear Chelsea,

I oppose the CAFO rules as drafted and concur with the comments of the Benton, Grant, Okanogan, Thurston, and Yakima County Farm Bureaus.

There needs to be much more clarity in the wording about "exactly who" and "exactly what" is defined in the CAFO draft. It needs to demonstrate what it takes to qualify and who doesn't qualify because we are a small homestead or farm.

We need to work with those who raise livestock on a small scale providing locally sourced food.

Applying CAFO standards to small operations, will be devastating to local food production and our overall food security.

Ecology must recognize the work of the Voluntary Stewardship Program and local conservation districts. Instead of regulating, Ecology needs to encourage participation in these voluntary programs, proven to protect water quality.

Sincerely,

Ana Seidel
